EXPERIENCE

100Devs, January 2022 – Present
Full-Stack Developer
- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built modern UI using CSS grid, flexbox, JavaScript and Figma.
- Applied agile methodologies like SCRUM for project management.

CorriCodes, November 2021 – Present
Web Development & Design
- Created responsive websites for online music school and portfolio using HTML, CSS & JavaScript.
- SQL & NoSQL database administration, as well as embedding security tokens such as CSRF.
- Built various games and applications such as the Google T-Rex run game, weather app & and online store with authentication and security features.
- Set up meetings with clients on RemoteHQ to plan and design their website prototypes or mood boards using the built-in Figma application and Miro Board.

Merriam School Of Music, June 2011 – Present
Music Education Specialist
Formerly Administrative Assistant & Bookstore Associate
- Educated students of all ages, levels and learning styles through online learning using LearnCube, Google Meet, Discord & RemoteHQ.
- Organized lesson plans, recitals and exam preparation with the use of Miro Boards, Google Drive & Classroom applications.
- Troubleshot with IT, quickly looked for a backup solution to technical issues in online lessons and researched different video platforms that could be used for teaching.
- Designed posters, brochures, lesson plans, slideshows and worksheets for students' lessons, recitals, exams and promotions using Canva or Photoshop.
- Increased customer retention with creative teaching methods, assisted in scheduling lessons and set up payment plans with Salesforce Administration.
- Tracked inventory, processed orders from the online bookstore, booked piano tunings, and metric tracking.

Green Party Of Canada, September 2021 – Present
- Promoted platform on social media and in the Norfolk & Haldimand County areas.
- Informed and educated on low-waste solutions, Guaranteed Living Income action plan, saving Canada's old growth forests, and the transition of oil and coal workers into a greener industry.
