EXPERIENCE

100Devs, January 2022 – Present
Full-Stack Developer
- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built modern UI using CSS grid, flexbox, JavaScript and Figma.
- Applied agile methodologies like SCRUM for project management.

CorriCodes, November 2021 – Present
Web Development & Design
- Created responsive websites for online music school and portfolio using HTML, CSS & JavaScript.
- SQL & NoSQL database administration, as well as embedding security tokens such as CSRF.
- Built various games and applications such as a battery indicator app, a weather app & and an online store with authentication and security features.
- Set up meetings with clients on RemoteHQ to plan and design their website prototypes or mood boards using the built-in Figma application and Miro Board.

JAM, October 2021 – September 2022
Remote Corporate Event Host
- Hosted events and games for corporate events online using platforms such as Zoom, Teams, WebEx, Meet, etc.
- Used applications such as Google Sheets/Slides, JotForm, Crowdpurr and Piccles to run events.
- Made sure clients were engaged and entertained while leading them through the event and how to use the applications, explained rules, assigned teams and keep score for end of game.

Merriam School Of Music, June 2011 – Present
Music Education Specialist | Formerly Administrative Assistant & Bookstore Associate
- Educated students of all ages, levels and learning styles through online learning using LearnCube, Google Meet, Discord & RemoteHQ.
- Organized lesson with the use of Miro Boards, Google Drive & Classroom applications.
- Prepared students for auditions, recitals and exams.
- Troubleshot with IT, quickly looked for a backup solution to technical issues in online lessons and researched different video platforms that could be used for teaching.
- Designed posters, brochures, lesson plans, slideshows and worksheets for students' lessons, recitals, exams and promotions using Canva or Photoshop.
- Increased customer retention with creative teaching methods, assisted in scheduling lessons and set up payment plans with Salesforce Administration.
- Tracked inventory, processed orders from the online bookstore, booked piano tunings, and metric tracking.
